

Vaccines Available at Select Walgreens and CVS Locations for Iowans Age 65 and Older

Wednesday, February 3, 2021

News Release (/taxonomy/term/50)

The Iowa Department of Public Health (IDPH), in partnership with Walgreens and CVS announce the availability of COVID-19 vaccine for approximately 32,000†Iowans age 65 and older. Unused vaccines which were originally allocated to the Long-Term Care Pharmacy Partnership Program have been redistributed to a limited number of Walgreens and CVS stores in select Iowa counties, and reserved for Iowans age 65 and older. This is a one-time, additional allocation of vaccine. The Iowa Department of Public Health (IDPH), in partnership with Walgreens and CVS announce the availability of COVID-19 vaccine for approximately 32,000†Iowans age 65 and older. Unused vaccines which were originally allocated to the Long-Term Care Pharmacy Partnership Program have been redistributed to a limited number of Walgreens and CVS stores in select Iowa counties, and reserved for Iowans age 65 and older. This is a one-time, additional allocation of vaccine.

Iowans age 65 and older†can register online for a vaccine appointment at a participating Walgreens or CVS location near them. Appointments are limited to the number of vaccines available at each location.

If you are not able to secure one of these vaccine appointments, be assured that more vaccines are coming to the state on a weekly basis.

We encourage Iowans to remain patient as more vaccine arrives in the weeks and months ahead. It is also critical to continue practicing the mitigation measures that can slow the spread of the COVID-19 virus.

Wear a mask or face covering

Practice social distancing with those outside your household

Clean your hands frequently with soap and water

Stay home if you feel sick

Get tested if you are exposed to, or have symptoms of COVID-19
